TOEFL Test Structure

The Four components of the TOEFL test

Listening

Engaging in the Flow of Academic Discourse (Approximately 36 minutes)

1. Content: This section simulates real-life academic interactions by presenting a combination of classroom lectures and everyday conversations:

a. Lectures: Immerse yourself in three lectures, each lasting 3-5 minutes, and gain valuable insights from classroom discussions. Be prepared to answer six questions following each lecture.

b. Conversations: Navigate two short conversations, each lasting around 3 minutes, and demonstrate your comprehension by answering five questions per conversation.

2. Task: You'll have the opportunity to listen to each audio recording only once. While listening, take notes to capture key details and facilitate accurate recall when answering the related questions.

3. Tips: Develop focused listening skills to grasp essential information and identify the main points within the lectures and conversations. Familiarize yourself with the format and types of questions typically asked in this section to enhance your preparation.

Speaking

The Speaking portion of the TOEFL iBT assesses your proficiency in academic English speaking. The four tasks/questions are modelled after actual scenarios that one could run into both inside and outside of a classroom.

Question 1: Independent Speaking Task: Your response must be solely based on your own thoughts, beliefs, and experiences.

Questions 2-4: Integrated Speaking Tasks: These tasks ask you to use all of your English language skills, whether it be speaking, listening, and reading, in the same way that you would inside or outside of a classroom.

This section evaluates English fluency in academic settings through four tasks:

- Independent Speaking Task (personal response)
- Integrated Speaking Tasks (combining listening, reading, and speaking skills)

Participants have 15-30 seconds to prepare for each response. Tips include clear expression, logical organization, strong vocabulary, and grammar proficiency.

Writing

The Writing section of the TOEFL iBT test evaluates your English writing skills in an academic context, assessing your ability to express ideas clearly and organize them effectively.

This section comprises two writing tasks:

-Integrated Writing Task (20 minutes): You read a brief passage, listen to a short lecture, and then write a response based on the provided information.

Responses are typed using a computer keyboard, and the expected completion time for the Writing section is approximately 29 minutes.

Demonstrate academic writing skills in TOEFL iBT section:

- Integrated Writing Task (20 mins): analyze and summarize a passage and lecture.
- Writing for an Academic Discussion Task (10 mins): express and support opinions clearly.
- Responses are typed on a computer.
- Tips: practice organizing ideas logically, using academic vocabulary, and proper grammar.
